

## What's new in SAP Human Capital Management with EHP5?

**February 7 2012**

Due to the huge interest in our SAP HCM seminar in December, we are happy to inform you that we will be organizing a second edition of this free seminar on Tuesday February 7, 2012.

You will get a clear overview of the new and enhanced functionalities in **SAP ERP Human Capital Management** delivered with **Enhancement Package 5**. Our experts will demonstrate the major improvements, best practices and lessons learned, illustrated with live demos.

### What can you expect?

- Look at the new user interfaces for Employee & Manager Self Services based on ABAP Web Dynpro, including enhanced functionalities such as the profile-based approach for personal information, enhancements for time management, etc.
- Discover the innovations for Enterprise Compensation Management to optimize compensation processes in your company and structure them more efficiently.
- See how you can use a wide range of HCM functionalities by using the Netweaver Business Client. HR administrators, training administrators, recruiters, talent management specialists and managers have roles defined to execute their tasks on the Netweaver Business Client.
- Explore the new possibilities for reporting and analytics in Human Capital Management, including the new BI content for Compensation Planning, Learning Solution and Talent Management.
- Discover the standard mobile applications from the SAP App Store and learn how you can build your own mobile HCM apps.

In a few hours time you will get an update about the latest capabilities of SAP Human Capital Management and the broad experience of Flexso's dedicated SAP HCM team. Our experts will be available for all your questions.
