

# Everlam: Aiding Growth and Better Customer Service Through Digital Transformation

---

Everlam NV is an innovative producer of high-quality polyvinyl butyral film for both architectural and automotive applications. These films provide safety, security, sound and UV protection, and long-term stability in diverse indoor and outdoor uses. The company has an entrepreneurial spirit that puts customers at the heart of its business supported by strong technical expertise and service excellence.

To continue providing a high level of service to these customers and expanding its operations, Everlam set out to digitally transform its business with a holistic approach for whole business processes and IT architecture. It needed a solution that would help it **connect every aspect of its digital value chain.**

# Enabling Excellence in Business Processes and an Intelligent Enterprise with **RISE with SAP S/4HANA® Cloud**

## Before: Challenges and Opportunities

- Modernize the enterprise digital landscape to support growth and expansion
- Enable 24x7 real-time visibility to support accurate decisions
- Keep pace with technology innovations to maximize business value

## Why SAP and Flexso NV

- Long-standing relationship with SAP, a leader in cloud ERP with deep capabilities in supply chain management and analytics
- Business-transformation-as-a-service model of RISE with SAP S/4HANA® Cloud, enabling consolidation to fewer strategic partners
- Support for end-to-end integration between the SAP® ERP application and other SAP solutions
- Flexso's extensive experience in managing large-scale business transformations and expertise in deploying SAP solutions

## After: Value-Driven Results

- Achieved modern, future-ready IT with integrated data across the business
- Reduced technology landscape complexity and realized cost savings
- Enabled data-driven decision-making and insights using enterprise-wide analytics
- Improved system visibility and security thanks to real-time dashboards and timely patches
- Streamlined IT operations with fewer strategic technology partners

“Our new IT architecture is **truly future-proof** and will be the stepping stone for our digital transformation. With SAP S/4HANA Cloud, the system is available, reliable, and efficient.”

Özcan Kaymaz, Purchasing and Business Improvement Director, Everlam NV

**26%**

TCO reduction within the next 10 years

**<7 months**

To complete the project, split equally between version upgrade and transition to the cloud

**33%**

Lower IT operations cost

THE BEST RUN

## Providing a Modern and Effective IT Platform to Support Innovation

In the chemicals industry, you must keep your systems operational around the clock. With every tool and piece of software continuously sending data to the ERP system, any interruption results in backlogs and business impact.

That's why Everlam NV worked with SAP partner Flexso NV to implement RISE with SAP S/4HANA® Cloud. Its new ERP system based on SAP S/4HANA Cloud is constantly accessible, improving dependability and efficiency.

Future requirements of ERP are never guaranteed in an ever-evolving company. This made a cloud service with a subscription model the logical choice for Everlam. RISE with SAP S/4HANA Cloud provides the flexibility Everlam needs in its digital transformation journey and an agile platform ready to cater to the company's growth.

“Cost was one of the primary factors in the decision to migrate to the cloud. We were looking for the **most cost-efficient but also effective method** of utilizing SAP solutions. With RISE with SAP, we pay only for what we use.”

Özcan Kaymaz, Director of Purchasing and Business Improvement, Everlam NV
